## NOTE

- You can only add text, button, image and hotspot.
- You can replace an element with an asset of the same file type.
- Preview the creative to experience the interactivity.
- Animate option is enabled only for button, text and image.
- We don't recommend applying an Animation effect to a pre-animated element.
- A pre-animated element cannot be scaled, moved or subjected to any other property changes.

## BEST PRACTICE

Choose the right file format for images - JPG, PNG, GIF

Upload custom fonts to follow brand guidelines

Keep image size to maximum 500 KB

**2X**

Always design twice the size for retina displays

Use web-safe WOFF font format

Make sure the font size for key messaging is not less than 14px
